

“

WLC gave me the opportunity to work at two different news stations. The internships allowed me to solidify my passion for journalism and explore sides of the career I never thought I'd like. My favorite part was being able to write scripts for the news!

The internships helped me to consider a career as a news producer and get experience as a high schooler. It also gave me a head start on networking as a 16 year old by meeting professionals in the area at stations like KGAN and KCRG.

I am going to Iowa State in the fall to major in Journalism and Mass Communications!
